

# Multiple roles in HE continuous learning sector

*Ms Anne Korhonen, Learner, Team leader, Tampere University*

# Tampere, Finland

- Tampere University is the second largest university in Finland.
- Our community comprises 21,000 students and 4,000 staff members.

**We believe that human potential is unlimited.**

# We work together to build a sustainable world

The new multidisciplinary Tampere University brings together research and education focusing on

- **technology**
- **health**
- **society**

We develop solutions to tackle climate change, preserve the natural environment, and improve the well-being and sustainability of societies.

# Continuous learning comes in all shapes and sizes

Tampere University's Juniversity offers exciting activities and opportunities for children and young people.

Tree – Continuing Education offers a full range of professional development services for organisations, teams and individuals.

Whatever your age or educational background, the Open University offers you courses in a variety of fields.

# Multiple roles in HE continuous learning sector

Ms Anne Korhonen

Learner, Team leader,  
Tampere University

*....there's often lots of potential behind the scenes  
– getting to know each other better is important!*

# My learner path – in real life

Continuous learning all the way through! Work-related trainings, learning at work, learning at hobbies, reading, podcasts, networks etc.

# Questions for a continuous learner – and for those providing the services!

What skills or knowledge do I need? Why?

Where and how do I get it?

What does it cost, and who pays it?

How much time it takes?

When do I have time for learning?

Have I got enough time for learning?

How do I learn the best?

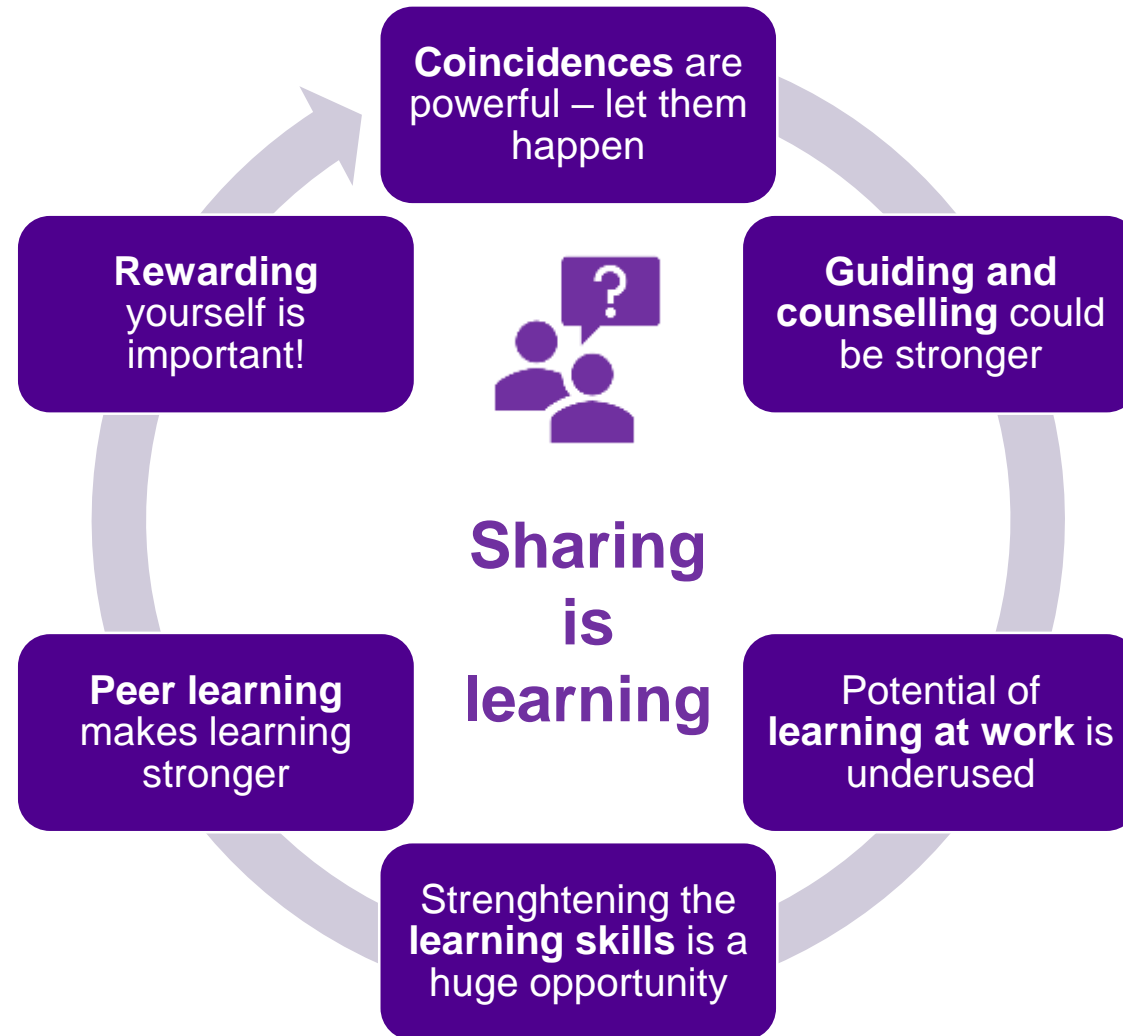

How can I use my skills and knowledge?

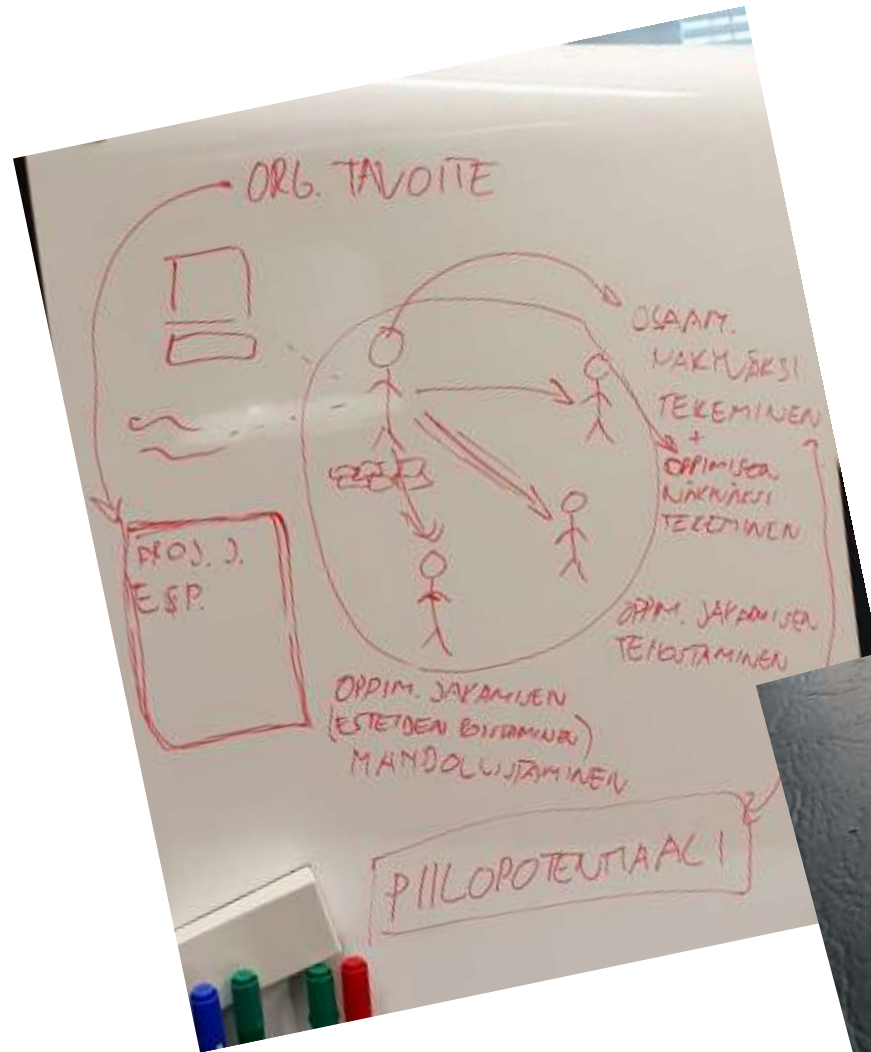

How do I know if the learning succeeded?

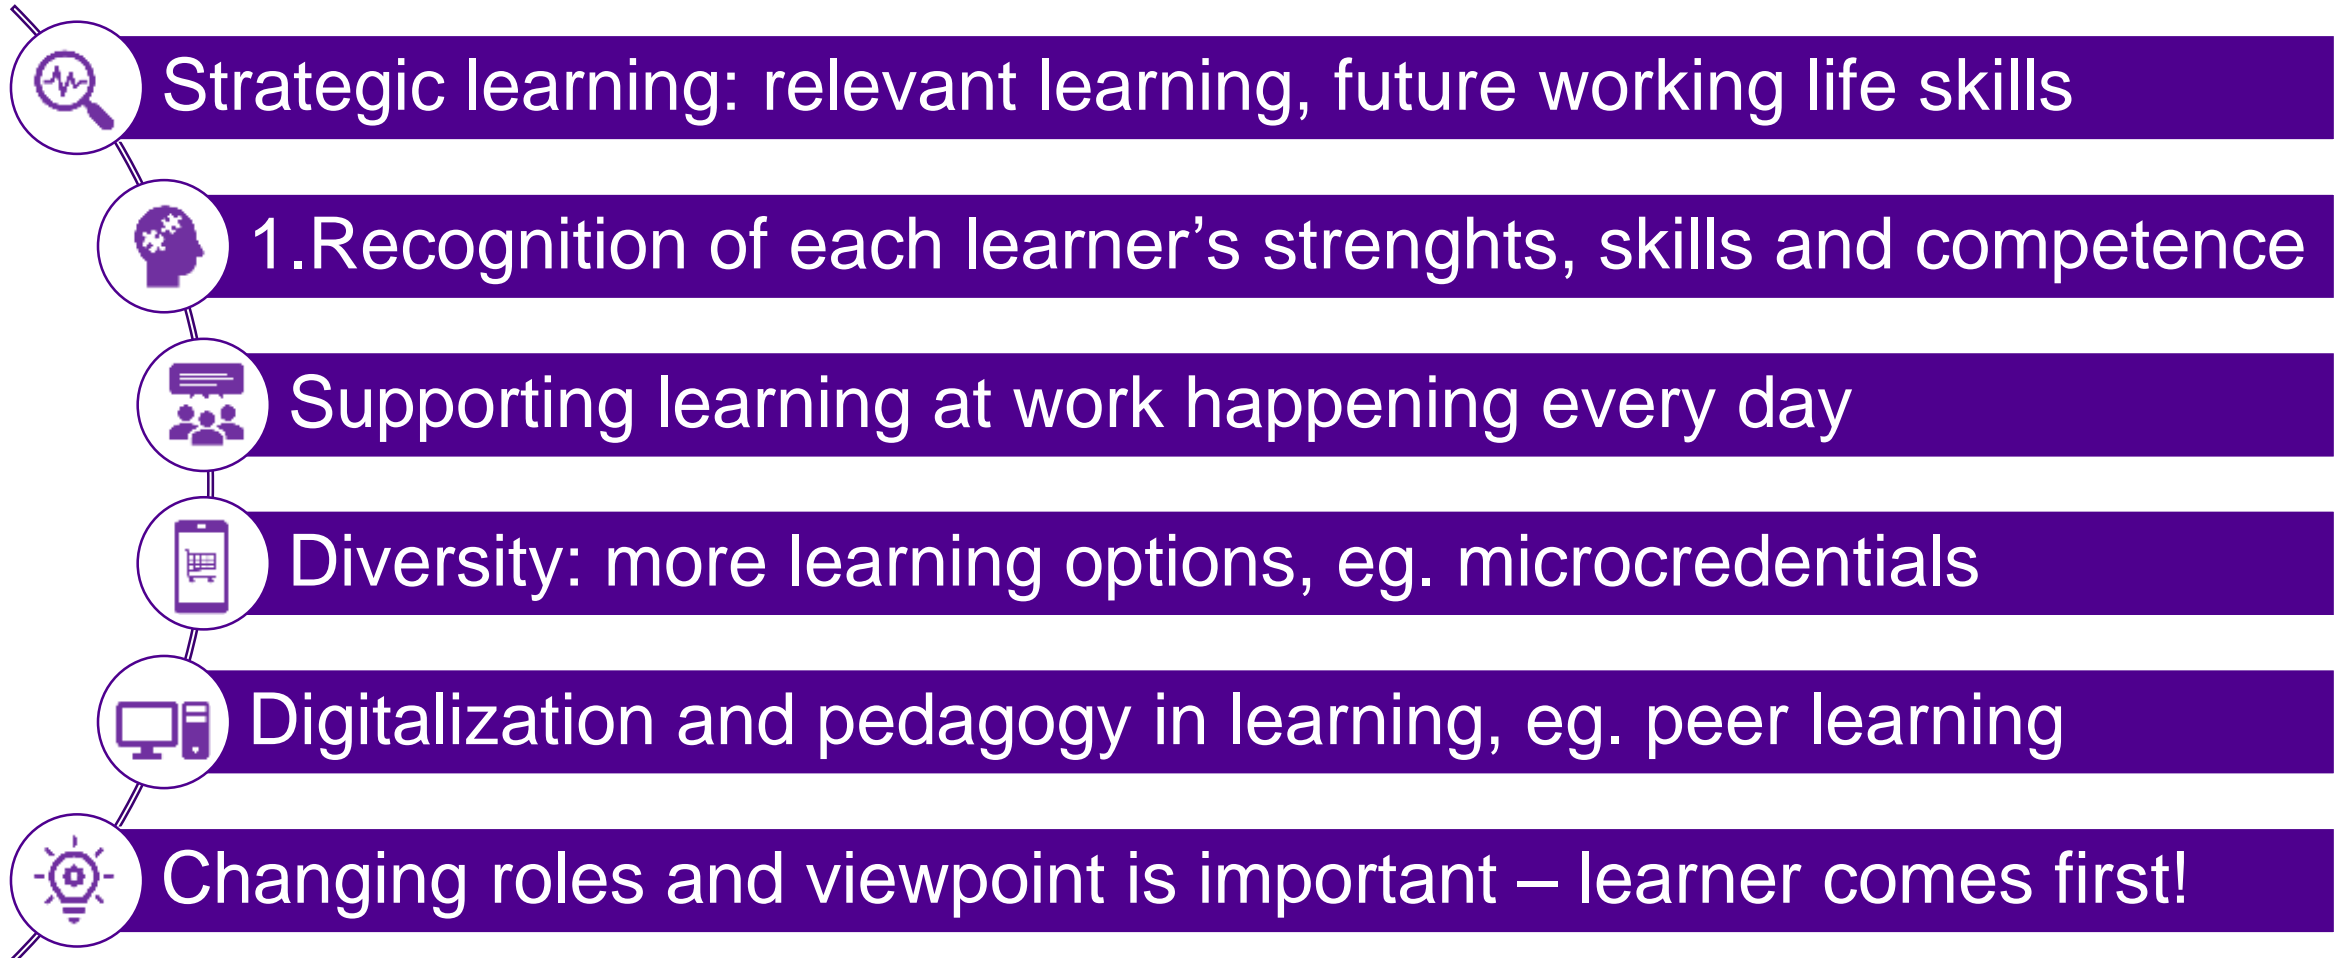

# My experiences as a continuous learner

# Continuous learning - in real life

# Food for thought for HEI continuous learning

# Human Potential Unlimited.
